This month I wanted to do things a little different. Today we had a memorial Alfred Kohler who recently passed and all of the members we've lost since Covid (2019) who may not have had a memorial at the time due to Covid-restrictions. It's important that we keep those we lost in our hearts and honor the lives they led and the memories we shared. We came up with a list of almost 40 people, and it's still growing. We thank everyone who came today in honor of Alred and others. Thank you to everyone who was brave enough to come speak and share your stories in regards to those we commemmorated. May they all rest in peace. Below you will find the list of all the names as well as the pamphlet of photos handed out during the ceremoney.

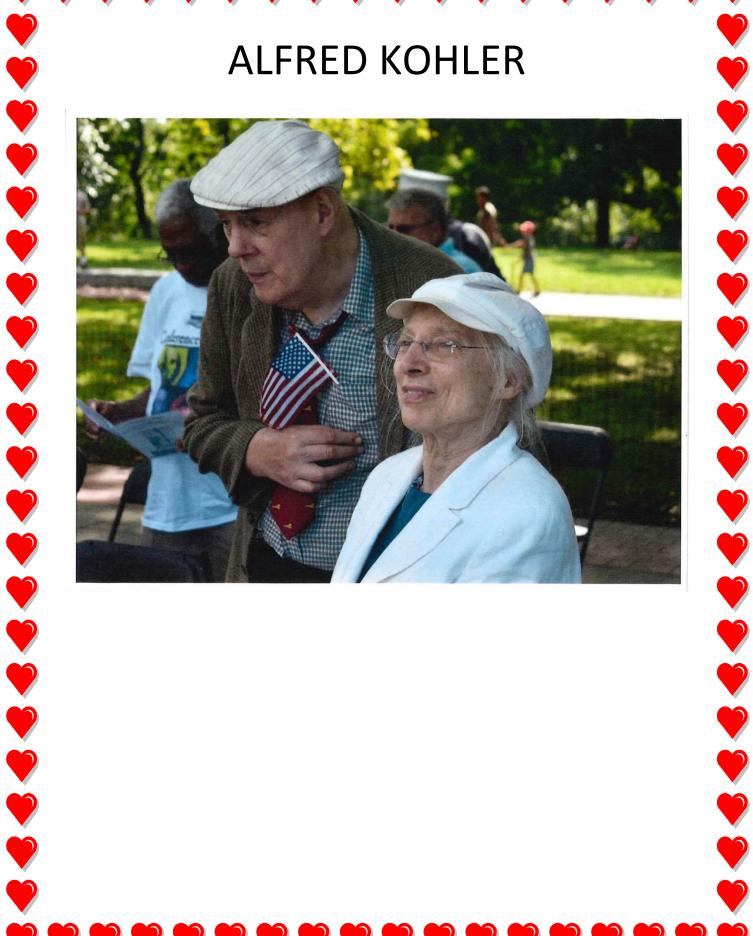

Best,

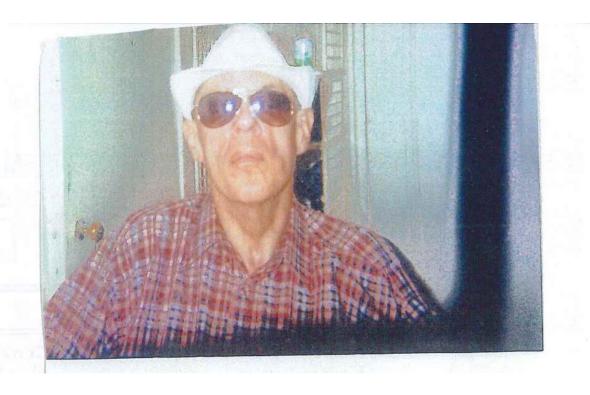

Daniel Mascola
